

The easy to clean keyboard

Simple touch. Perfect typing.

The new wireless version of the Cleankeys® brand, known as CKW4, stands out thanks to its elegant design and comfortable sense of touch – and it is also easy to clean and disinfect with a single wipe. It saves time, money and remains free of germs and viruses at all times – thanks to its smooth operating surface. The capacitive keys, which operate without any mechanical pressure, ensure a pleasant writing feel, even for people suffering from problems with their tendons and joints. The ergonomic design of the case and the adjustable, acoustic key feedback facility also support the enhanced level of writing comfort. We can manufacture special modifications ranging from private labeling to different country and keyboard layouts and can even provide individual design modifications.

- Keylock function prevents any keys being triggered inadvertently during cleaning operations
- Battery status display prevents idle times
- Visual cleaning reminder through signal LED
- Separate configuration for acoustics and sensitivity
- Possible to operate with latex and silicone gloves
- Innovative engineering “Made in Germany”
- Long-lasting product quality
- Eco-friendly charging concept
- Country adapter set for all common power sockets
- Optional mounting on supporting arms and carrier systems
- Also available as a wired version
- Enhanced scratch resistance through the use of Gorilla® Glass 3
